

Discover how Jen Rodgers used CBF to totally transform her cleaning business... nearly doubling her monthly revenue in three short months and becoming a \$1 million business in three short years!

Challenges

After seven and half years of running Just Peachy Clean LLC, Jen Rodgers was ready to call it quits. She was frustrated with the constant chaos of cleaning, managing her technicians, dealing with customer complaints, and chasing down payments – all while trying to raise two kids of her own. She desperately needed to learn a more efficient and systematic way to run her business that would streamline her life and yield more profit.

Solution

Jen's friend Suzi Virgilio was in CBF and couldn't stop sharing how much it had changed her business. After lots of hesitation, Jen finally agreed to learn more about the program. She decided to join, reassured by the 14-day money-back guarantee. Six days after joining, she went to a CBF Retreat and was amazed by all she was learning. She quickly recognized that CBF was her path to business success and signed up for CBF For Life.

Results

- Within 3 months of joining, Jen's monthly revenue increased from \$18,000 to \$32,000 per month
- Within 3 years of joining, Just Peachy Clean LLC was bringing in \$87,000 in monthly revenue and became a million dollar business
- She has lifetime access to all of the tools + frameworks needed to continue growing her business
- Jen now has time freedom since her business can run without her
- She went from taking 1 (stressful to schedule) family trip a year to now taking 2-3 family trips a year, plus multiple trips to CBF events
- Has a community of fellow cleaning business owners who understand her challenges, support each other's growth, and have become some of her best friends

"Before CBF, I was running my business in survival mode and just trying to get from day to day. Without a business background or a college degree, I didn't know where to even start to fix my business. CBF teaches you how to do everything. Finding CBF and following their system to streamline my business and make it profitable was an answered prayer, and I certainly wouldn't be in business today without it."

— Jen Rodgers | CEO | Just Peachy Clean LLC
